Technical Rider Requirements

9 Piece Band

STAGE:

EPIC requires a 24' wide x 20' deep x 24" high (larger, if available) with a minimum of 4 sets of steps (two off front edge of stage and a single unit on Stage R and Stage Left)

SOUND REQUIREMENTS: (Please refer to Attached Stage Plot)

Buyer to provide a professional sound system consisting of no less than a three-way house speaker cabinet system providing flat frequency response evenly distributed across the sound frequency spectrum, and delivered evenly to the entire audience, per the below specifications. Said sound system should have adequate power to deliver at least 110db of continuous sound, free of distortion, hums, and noise, tested with lighting up and turned on. Subwoofers are required to deliver the same decibel reading from 20Hz-250Hz. Subwoofers must be on an independent aux send for complete control during mix. ***Artist or artist's representatives are to have complete control, when needed, of said equipment during sound check and show.***

FOH P.A.:

- Minimum 3-Way System with Subs capable of clear, clean sound quality at 110db at Mix Position with:
- 32 channels input is preferred, Minimum 24 channels
- 3 - FOH effects units required -
- 2 Reverb Units (Lexicon or comparable)
- 1 Digital Delay

MONITORS

Separate monitor console w/monitor engineer is requested

- Separate equalizers for each mix
- Minimum 7 separate monitor sends
- Minimum 7 wedges (as diagramed)
- If separate monitor console w/monitor engineer is not available, the front of house board **MUST** have Aux sends that are wired, pre-fade and pre-EQ'd. No Less than a 24 Channel 8 Aux (min.) console (Digico, Yamaha Digital Consoles, Allen & Heath, Soundcraft, Midas, etc) - (Behringer, or the like, will not be deemed acceptable.)

MICROPHONES

EPIC will need:

- (5) high quality wireless mics w/ Straight Stands for
 - (2) Male and (1) Female Lead Vocalists
 - (2) Female BGVox/Dancers
- (2) Wired Vocal Mics w/ Boom Stands for Bass and Guitar

LIGHTS: EPIC is high energy show, So the more lighting you give us, the better your show will look.

We suggest:

- Minimum 60 - 1000watt par 64's (30 upstage truss / 30 downstage truss)
- Any specialty lighting (Moving lights, strobes, black lights, etc.)

Fog/Hazers will also enhance the overall look of the stage

SETUP/SOUND CHECK

EPIC requires no less than one (1) hour for sound check and it is to be completed at least 60 minutes prior to performance. The start of Sound check is AFTER Backline has been set and all lines ran and tested.

SETUP POLICY:

EPIC requires a 3 hour window to set and soundcheck. There should be NO LESS than 60 minutes between the end of Sound Check and Show start, so ACT can break, eat and dress. There should be NO MORE than 2 hours of wait time between end of Sound Check and Show Start. Any time over this, EARLY SET UP FEES will APPLY (see below).

EARLY SET UP FEES: The pricing you were quoted or contracted at, is based on this policy. We understand sometimes this information is not known at the time of contract and the SET BY time may change after the fact, but please note these charges will be incurred either way and if already contracted will be billed as EARLY SETUP/OT on final invoice. These are our STANDARD FEES and will apply in either case.

- * 121 MINUTES - 180 MINUTES of wait time between Sound Check and Performance = (1) HOUR of PRO-RATE.
- * 181 MINUTES - 240 MINUTES of wait time between Sound Check and Performance = (2) HOURS of PRO-RATE.
- * ANYTHING OVER 241 MINUTES: Will be negotiated when information is communicated to us

If your event requires a LATE STRIKE, this needs to be communicated and negotiated BEFORE contract is issued OR OT rates will APPLY.
